Line drawings	17
Select client list (worship)	18

LH 33 *St Edmund's* chair was developed as a stacking, linking liturgical seat that is easy to connect, handle, and store. More specifically, it was designed to show a strong horizontal top-rail when laid out and connected (i.e. no gaps, minimum fuss), consciously echoing the architectural impact of traditional pews.

The LH 33 *St Edmund's* chairs are light, comfortable, extremely robust and exceptionally easy to handle. It took only fifteen minutes for a team of three to lay out 300 chairs for the first service.

The chairs are made in European oak, can be left in a natural colour or stained to blend in with the interior landscape of the building. The seat can be upholstered or left with a timber seat, with or without a hymn book shelf.

It has since been specified for the Cathedral of St Philip in Atlanta (GA) and the Shrine of Our Lady of Pompeii in Chicago (IL).

*** 10 year warranty**

'What can we say?! HUGE gratitude to you and all your amazing colleagues; the new seating is truly wonderful and has transformed the nave. So - THANK YOU to everyone who has brought this great scheme to fruition - from us all here'

Canon Philip Banks, Precentor, St Edmundsbury Cathedral
